

Application for Upgrade and Additional Bin(s) (Garbage/Recycling/Green Waste): 2023-2024

Council is committed to sustainable waste management which promotes avoiding the generation of waste where possible and maximising recovery of recyclable material. Prior to making this application, have you considered the following:

- Are you recycling as much as possible?
- Do you need an additional recycling or green waste bin instead of a garbage bin?
- Have you considered alternates to waste disposal like composting or worm farming which Council will offer a rebate on?
- Any additional bins or upgrades to bins, requested by property owners, have a mandatory minimum 12 month charge from delivery date. Additional or upgraded bins may be cancelled prior to 12 months by the property owners however no refund is available for the costs incurred as prescribed in the "Fees and Charges" during the first 12 months.

Considering these options can not only contribute to being more sustainable but can save you money. For further information, please visit our website www.liverpool.nsw.gov.au or contact Council's Customer Contact Centre on 1300 36 2170.

How to lodge this application
