 NRS 133 677 (for hearing and speech impaired callers only)

## COMPOSTING AND WORM FARMING

Composting and worm farming are natural ways to recycle your organic garden and food waste. It is easy to start your own compost and worm farm at home, and Council can help make it even easier. Council can offer you some tools to help you get started with:

- A \$50 rebate for any compost bin or worm farm you buy
- FREE workshops on how to get started and trouble shooting tips
- Information about how to compost and worm farm.

## WHY SHOULD YOU COMPOST OR WORM FARM?

- 50 per cent of waste generated at home is organic matter which can be recycled
- Composting and worm farming are cheap and easy ways to reduce your organic waste at home
- Composting returns vital nutrients back to the soil
- Castings and liquid fertiliser from worm farms are high in nutrients and add much needed nourishment back into the soil creating healthier plants and gardens
- Composting and worm farming is 100 per cent natural fertiliser so you don't have to buy expensive artificial chemical fertilisers.

## HOW?

You need to decide if a compost bin or a worm farm suits your needs. There are many types and sizes to suit your space.

### COMPOST BINS SUIT YOUR NEEDS IF YOU HAVE:

- A large number of people in your family
- A large garden
- Plenty of fresh fruit and vegetable scraps.

### WORM FARMS SUIT YOUR NEEDS IF YOU HAVE:

- A small garden or live in a flat or town house
- One or two people's worth of food scraps.

## WHERE DO I GET A COMPOST BIN OR WORM FARM?

Hardware stores or garden centres sell compost bins, worm farms and worms.

## YOUR REBATE

To receive a \$50 rebate, simply buy your compost bin or worm farm from any retail outlet and follow the steps below:

1. Fill in and sign the attached form
2. Attach your original receipt (it must include the place of purchase on it)
3. Return the form to Council
4. We will mail you your cheque (cheques are sent at the end of the month) or deposit \$50 into your bank account.

### **Please Note:**

You must live in the Liverpool Local Government Area to claim the rebate. There is a limit of two rebates per household.

## WHAT IF I ALREADY HAVE A COMPOST BIN OR WORM FARM?

Do you already have a compost bin or worm farm that isn't working quite right? Do you need to start again? Then come along to one of our free workshops. They cover how to set up a compost bin and worm farm, how to maintain them and troubleshooting tips.

If you would like to come along to a workshop contact Council's Customer Service Centre on 1300 36 2170 or visit [www.liverpool.nsw.gov.au](http://www.liverpool.nsw.gov.au) to find out when the next workshop is being held.
