As Mayor of Liverpool City, I would like to affirm our deep commitment to disability inclusion. Local government plays an important role in disability inclusion and here at Council we are working towards creating a diverse community that is respectful and accessible to everyone. We want Liverpool to provide equal opportunities to everyone, regardless of their background, abilities or lifestyle.

Consultation with people with disability has guided and informed the development of this plan, which in turn, gives Council a framework to imbed inclusion as a key consideration across all Council business.

It gives us practical ways we can make our community more inclusive. Some of these things we are already doing, like upgrading our facilities to improve accessibility, producing a mobility map of Liverpool and inclusive guidelines for event organisers.

But we can always do more. This plan will help Council develop positive community attitudes and behaviours regarding people with disability, create liveable communities, support meaningful access to employment, and improve access to services.

Inclusion benefits everyone, not just those with disability, their carers, friends and family. By making Liverpool more inclusive, we also make it stronger, fairer and a better place to live and work.

Wendy Waller
Mayor of Liverpool
I am very proud of the Liverpool City Council Disability Inclusion Action Plan (DIAP) 2017–2021, which has been developed through a comprehensive and sound consultation process. It reflects local issues and opportunities to improve inclusion and accessibility for all.

The DIAP gives us a list of practical actions to be implemented across the organisation to make us a more inclusive employer and a better provider of services to people with disability and their supporters.

As a major employer in Liverpool, it’s vital that Liverpool City Council shows leadership when it comes to inclusive employment practices. In ensuring we have robust equal opportunity employment practices, Council not only meets its legislative responsibilities, but also responds to the needs of its community.

The DIAP will build on Council’s existing services and key projects and help us foster a culture that respects diversity and recognises the importance of strong, supportive management. We want to be a favoured employer for people with disability and we want to support other employers in our Local Government Area in doing the same.

We will work with other disability service organisations and the community to realise the DIAP, continuing to forge close relationships with others who work towards inclusivity.

As we build the new Council Administration Centre we will take advantage of the strong opportunity to showcase our commitment to inclusion and accessibility, just as we do when renewing and building new parks and community facilities.

I look forward to the DIAP playing a key role in the way we do business here at Liverpool City Council and thank the many people who have had a hand in its production.

Kiersten Fishburn
CEO of Liverpool City Council
Liverpool – an inclusive place to live, learn and grow.

Council promotes and supports access and inclusion in all areas of our business.

This includes:

- How we listen to and talk with people with disability
- How we support and encourage employment opportunities
- How we plan our buildings and outdoor spaces
- How we provide information and services
- How we promote community awareness and improve attitudes towards people with disability
- What Federal and State government services we advocate for

Council believes access and inclusion are everybody’s business. This four year Action Plan seeks to address all forms of disability, reflecting individual limitations and the barriers that our society places which restrict life choices.

Council will be a leader in making Liverpool an inclusive community where diversity is promoted and positive change for people with a disability can occur. We will improve our own practices to develop Council’s internal systems and processes to ensure they support better outcomes for people with disability.
WHY A DISABILITY INCLUSION ACTION PLAN (DIAP)

We’ve created this action plan to show community leadership as an exemplary employer and to ensure our services and information are accessible for all residents and visitors.

We know disability takes many forms and recognising it, let alone labelling disability, can be problematic. Disability can result from trauma, illness or genetic disorders. It may affect a person’s mobility, communication or learning as well as their income and participation in education, social activities and work.

Across NSW, Australia and the world, governments are striving to ensure that people with disability have access to services as supported members of the community. For our DIAP we have been able to draw on the UN Convention on the Rights of Persons with Disabilities, the National Disability Strategy and the NSW Disability Inclusion Plan (see diagram on page 9).

Encouraging diversity enriches us as a community and supports individuals to participate fully in our society. Measures that we take now to support full inclusion will provide social, economic and personal benefits to Liverpool such as:

- reducing disadvantage and discrimination that have widespread health, welfare, education and financial impacts
- expanding work opportunities to enhance independence, self-worth and encourage social connections
The United Nations Convention on the Rights of Persons with Disabilities (2006) presented eight principles for inclusion:

1. Respect for inherent dignity, individual autonomy including the freedom to make one’s own choices, and independence of persons
2. Non-discrimination
3. Full and effective participation and inclusion in society
4. Respect for difference and acceptance of persons with disability as part of human diversity and humanity
5. Equality of opportunity
6. Accessibility
7. Equality between men and women
8. Respect for the evolving capacities of children with disability and respect for the right of children with disability to preserve their identities

In 2015, the NSW Disability Inclusion Plan identified four focus areas of inclusion after talking with people with disability. These are:

- Developing positive community attitudes and behaviours
- Creating liveable communities
- Supporting access to meaningful employment
- Improving access to mainstream services through better systems and processes

Keeping in mind these important principles and focus areas, Council has completed the disability inclusion action planning process as required by the Disability Inclusion Act 2014 (NSW). This process fits in with our Integrated Planning and Reporting cycle – our Community Strategic Plan and Delivery Program and Operational Plan.
HOW IT ALL FITS TOGETHER

UN Convention on the Rights of Persons with Disabilities

National Disability Strategy (NDS)

National Disability Insurance Scheme (NDIS)

NSW Disability Inclusion Act 2014 (DIA)

NSW Disability Inclusion Plan
1. Attitudes and behaviours
2. Employment
3. Liveable communities
4. Systems and processes

An inclusive NSW
Liverpool City Council
Disability Inclusion Action Plan 2017 - 2021
Our people, businesses, organisations and staff are diverse. It’s our strength.

Liverpool is welcoming and inclusive – we recognise and support each other’s differences. We work every day to build connections within and outside of our community.

- 5.4% of people in Liverpool reported needing help in their day-to-day lives due to disability. That’s over 9,500 people with a profound or severe disability, 1.0% greater than the Sydney average.
- The number of people with disability in Liverpool is likely to be closer to the national average of 18%.
- In Liverpool 11.2% of the population (15,488 people) assist someone with disability.
- This is close to the national average, where one-third of primary carers live with disability themselves.
- In Australia over one-third of women and over one-quarter of men aged 15 years and over had avoided situations because of their disability.
- Across Australia almost half of people with disability were not in the labour force compared with 16.8% of those without disability.
- There are 11,585 accessible parking permits allocated across Liverpool.

Source: 2011 ABS, 2015 ABS, 2016 RMS
WHAT WE HEARD

To create this Action Plan we spoke to many people in the Liverpool community.

In late 2016 and early 2017, we asked local community members with disability, their carers and local service providers what Council does well and how it can better support people with disability.

We asked Council staff to think about what they do internally and for the community to support inclusion in Liverpool. Their thoughts and ideas have been included in our actions.

We held three workshops in conjunction with local organisations, to hear from people with disability and their carers, including:

- Vietnamese Carers Association
- Northcott Transition to Work Program
- Disability South West – Acquired Brain Injury Program

We interviewed key staff from local organisations including:

- Liverpool Migrant Resource Centre
- Disability South West
- Share Care
- Northcott
- The Junction Works
Every action that Council takes should consider people with disability and their accessibility needs…accessibility is for everyone not just people with a chronic disability.” – local service provider
Two accessibility and inclusion questions were included in the Community Strategic Plan survey:

- What do you see as major challenges to making Liverpool more inclusive for people with disability? (124 responses)
- What do you see as the greatest opportunities to ensure Liverpool is a more inclusive place for people with disability? (128 responses)

Ensuring Council has an understanding of which community members have a disability and what their needs are.

- COMMUNITY SURVEY RESPONDENT

Every action that Council takes should consider people with disability and their accessibility needs…accessibility is for everyone not just people with a chronic disability.”

- LOCAL SERVICE PROVIDER
We also presented at the Liverpool City Council community rural forum and to Council's Access Committee.

We presented the process for developing a DIAP to all Council executive members at an Executive Management Team briefing, and to all Council managers at a Managers Meeting. We also had a workshop with managers and staff to review and prioritise actions. After this workshop, managers reviewed draft actions individually to endorse DIAP actions or provide feedback.
We heard what people with disability do and don’t like about living and working in Liverpool. Opportunities for Council to support an inclusive community that people commonly identified are summarised below.

**Positive attitudes and behaviours**
- Encourage positive attitudes across all Liverpool communities and cultures
- Promote awareness of the challenges for people with disability living in the community
- Support inclusion for carers
- Liveable communities
- Liverpool needs to be easier to get around, there should be:
  - safe and reliable transport options
  - accessible and appropriate parking
  - an inclusive physical environment with sport and recreation opportunities

**Meaningful employment**
- Identify and support local employment options, especially for young people, which better match people’s capabilities
- Promote to local businesses the benefits of providing employment and training opportunities to people with disability

**Better systems and processes**
- Engage with people with disability and consider their needs with all decision making
Council continually works to support an inclusive community.

We provide accessible facilities and services, and upgrade those which aren’t up to scratch, including:

- Development of Carnes Hill Community and Recreation Precinct
- Development of Bigge Park
- Development of Community Buses

We develop and promote information for members of the community, including:

- Missed Business Guide
- South West Sydney Disability Services Directory
- Liverpool Mobility Map
- Guidelines for Events Organisers

We support events and services including:

- International Day of People with Disability
- South West Sydney Ageing and Disability Forum
- Regular and special library programs including the Auslan Friendship Group
- Casula Powerhouse Arts Centre Access programs

We consider our internal systems by:

- Employing a Community Development Worker (Aged and Disability)
- Organising and consulting with the Liverpool Access Committee
- Developing our Workforce Management Plan
Our Home, Liverpool 2027 along with the four focus areas and consultation outcomes have been used to guide Council’s actions for inclusion.

The action plan provides Council with a ‘to do’ list that identifies who’s responsible, who we can work with and when we should do it by. It builds on the work undertaken for Council’s Disability Strategy 2012 – 2017 and Action Plan 2013 – 2017.

The actions reflect three important priorities for Council:

1. Review internal organisational practices to be proactive towards meeting the needs of people of all abilities
2. Make Council’s services and facilities inclusive and accessible to all
3. Increase opportunities to create an inclusive and supportive environment for all, including people with disability.

Council’s Community Strategic Plan identifies four future directions in the 10 year plan:

- Direction 1 – Creating Connection
- Direction 2 – Strengthening and Protecting our Environment
- Direction 3 – Generating Opportunity
- Direction 4 – Leading through Collaboration.

Our actions build on the directions above, and reflect the four disability inclusion focus areas of:

1. Developing positive community attitudes and behaviours
2. Creating liveable communities
3. Supporting access to meaningful employment
4. Improving access to services through better systems and processes.
Supported actions for inclusion = Current literature and legislation + Council's existing services & information + Internal and external consultation

 Liverpool City Council Disability Inclusion Action Plan 2017 - 2021
We’re going to do what we say to make Liverpool inclusive. Council will monitor and evaluate its progress to make sure our actions and strategies are being implemented. This is part of our Integrated Planning and Reporting (IP&R) processes making sure our services, and where we are headed, are responsive to our community’s needs. As part of IP&R, we review our programs, actions and vision every one and four years. Implementation of Council’s Disability Inclusion Action Plan will be reported in the Annual Report and a copy forwarded to the NSW Minister for Disability Services.

All measures in the Plan will be reviewed and revised every four years. The review process will include consultation with members of the disability community including people with disability, carers, family, friends and service organisations. The conversation with people with disability that started with this Plan will continue.
