<b>Position Grade:</b>	15 + 10%	<b>Reports to:</b>	Team Leader Environmental Health
<b>Last review:</b>	January 2018	<b>Next review:</b>	January 2020
		<b>Version No.:</b>	2.0

### Position purpose:

To protect, promote and enhance public and environmental health and community wellbeing by undertaking inspections and education to ensure regulatory compliance.

### Key accountabilities/responsibilities:

Responsible for:

- 1) Inspecting sites and resolving public health and environmental issues in accordance with the relevant legislation. This involves understanding Council's responsibilities to regulate and ensure compliance with the full range of environmental health standards.
- 2) Providing continuous proactive surveillance of commercial establishments, and undertaking environmental auditing to ensure environmental health standards are being achieved in accordance with current legislation.
- 3) Preparing and implementing education programs which seek to improve environmental health and community wellbeing.
- 4) Actioning of customer requests in accordance with Council's policies and procedures.
- 5) Applying comprehensive communication skills including preparation of reports, correspondence, collection of evidence, preparation of statements of evidence, and briefing legal counsel.
- 6) Continuously developing and improving systems, supporting procedures and policies to ensure efficient work practices.
- 7) Work within the team to deliver identified targets and complete projects as determined by the Manager and Team Leader.
- 8) Assisting and supporting the Team Leader Environmental Health in ensuring that the environmental health program is undertaken in a satisfactory manner as well as providing timely technical advice and mentoring staff.
- 9) Attending and resolving public health and environmental issues including, air, noise, water, land, waste and nuisance complaints.
- 10) Carrying out inspections and assist in monitoring and ensuring compliance of Council's Environmental Health program, including Food premises/vehicles/events, hairdressers, beauty salons, skin penetration premises, cooling tower and warm water systems, swimming pools and spa's, funeral industry premises, caravan parks, on-site sewerage management systems/water recycling systems and other premises/activities as directed by management.
- 11) Assessing and providing comment on development applications pertaining to environmental health, including assessment of environmental impact statements, environmental management plans, on-site sewerage management systems, water reuse/recycling/treatment systems, acoustic reports, air/odour reports, contaminated land reports and the like.
- 12) Providing technical advice to developers, environmental consultants, architects, designers, engineers, Council staff, government departments and the public on environmental health requirements.
- 13) Attending and actively participate on any relevant meeting, working group or committee as directed by management that may relate to the position's responsibilities.
- 14) Flexible attitude to responsibilities and work hours
