

Government Information (Public Access) Act 2009 No 52 (GIPA) Division 5 Part 3 Government Contracts Register

General Information and Definition of Contracts

The *GIPA* act requires government agencies, including local councils to record and publish certain information about some contracts with private sector bodies

Part 3, Division 5 of the *GIPA* Act states that information about contracts between Council and private sector bodies that have or are likely to have a value of \$150,000 or more must be recorded in a Government Contracts Register.

The register must be published on Council's website and made public in any other way that Council decides to make its open information available

Contracts that must be included in the government contracts register are those:

Between Council and a private sector contractor signed after the commencement of the *GIPA* act

For a value of \$150,000 or more and involve:

- * the contractor undertaking a specific project such as construction, infrastructure or property development
- * the contractor agreeing to provide specific goods or services
- * the transfer or lease of real property

Different classes of Contracts

The *GIPA* Act provides for three different classes of contracts, each with different information requirements. These are:

Class 1 contracts are those that have, or are likely to have, a value of \$150,000 or more. Information about Class 1 contracts must be entered in the Class 1 contract worksheet.

Class 2 contracts are Class 1 contracts that require additional information in certain circumstances. Refer to the Class 2 contracts tab for details. Information about Class 2 contracts must be entered in the Class 2 contract worksheet.

Class 3 contracts are Class 2 contracts that have, or are likely to have, a value of \$5million or more. Information about Class 3 contracts must be entered in the Class 3 contract worksheet.

What information is protected?

Agencies do not have to publish in the register of government contracts, the following confidential information:

- the commercial-in-confidence provisions of a contract
- details of any unsuccessful tender
- any matter that could reasonably be expected to affect public safety or security
- any information where there is an overriding public interest against disclosure

Commercial-in-confidence provisions of a contract refer to information which:

- would reveal the contractor's financing arrangements, financial modelling, cost structure or profit margins,
- could place the contractor at a substantial commercial disadvantage in present or future dealings with the agency, or
- would disclose any intellectual property in which the contractor has an interest.

How long must the information be included in the register?

Information about government contracts must be included in the register within 60 days of the contract becoming effective (s.27(2)).

Section 34 of the *GIPA* Act requires information, including a copy of a contract where required, to be included in the government contracts register for either 30 days, or until the obligations under the contract have been satisfied, whichever is the longer period.

Where should the register of government contracts be published?

Publicly available on Councils website

This register records information about each contract to which Council is a party that has (or is likely to have) a value of \$150,000 or more

Name of contract	Contractor	Details of any related company that may be involved in carrying out the contractual obligations	Date the contract becomes effective	Duration of contract with extension options	Particulars of goods or services to be provided under the contract	Estimated amount payable to the Contractor and any allowable variations under the contract GSTI	Any renegotiation provisions	Method of tendering	Criteria for assessment	Any provisions for payment to the contractor for operational or maintenance services

Class 3 Contracts COMPLETE RECORD

If a Class 3 contract has (or is likely to have) a value of \$5million or more (a Class 3 contract), the register must include a copy of the Class 3 contract
 A requirement of this part to include information or a copy of a contract in the register does not require the inclusion of:

- (a) The commercial in confidence provisions of the contract
- (b) Details of any unsuccessful tender
- (c) Any matter that could reasonably be expected to affect public safety or security
- (d) A copy of a contract, a provision of a contract or any other information in relation to a contract that is of such nature that its inclusion in the register would result in there being an overriding public interest against disclosure of the record

If information is not included or only some information is included in the register in relation to this section the following information must be included:

- (a) The reason why the contract or those provisions have not been included in the register
- (b) A statement as to whether it is intended that the contract or those provisions will be included in the register at a later date and if so when it is likely that they will be included
- (c) If some but not all of the provisions of the contract have been included in the register, a general description of the types of provisions that have not been included

Variations to Contracts

- (a) If a material variation is made to a contract that would affect the particulars that are to be included in the register, the particulars included in the register are to be amended to reflect the variation within 60 days after the variation becomes effective.
- (b) If a material variation is made to a contract a copy of the variation or the varied provisions is to be included in the register within 60 days after the variation becomes effective

Name of Contract	Name & address of the contractor and subcontractor	Details of any related company that may be involved in carrying out the contractual obligations	Date the contract becomes effective (Letter of Acceptance signed)	Duration of contract	Particulars of goods or services to be provided under the contract	Estimated amount payable to the Contractor and any allowable variations under the contract	Any renegotiation on provisions	Method of tendering	Criteria for assessment	Any provisions for payment to the contractor for operational or maintenance services	Particulars of future transfers of significant assets to the State at zero or nominal cost to the date including the site office transfer	Particulars of future transfers of significant assets to the contractor including the date of the proposed transfer	The results of any cost-benefit analysis of the contract conducted by Council	The component and quantum of the public sector comparator if used	If relevant, a summary of information used in the Contractor's full base case financial model for example, the pricing formula for tolls or usage charges)	If relevant, particulars of how risk, during the construction and operational phases of a contract to undertake a specific project (such as construction, infrastructure or property development), is to be apportioned between the parties, quantified (where practicable) in net present-value terms and specifying the major assumptions involved	Particulars as to any significant guarantees or undertakings between the parties, including any guarantees or undertakings with respect to loan agreements entered into or proposed to be entered into	Copy of the Contract	Schedule of Redacted Information
