

What is the ePlanning Portal?

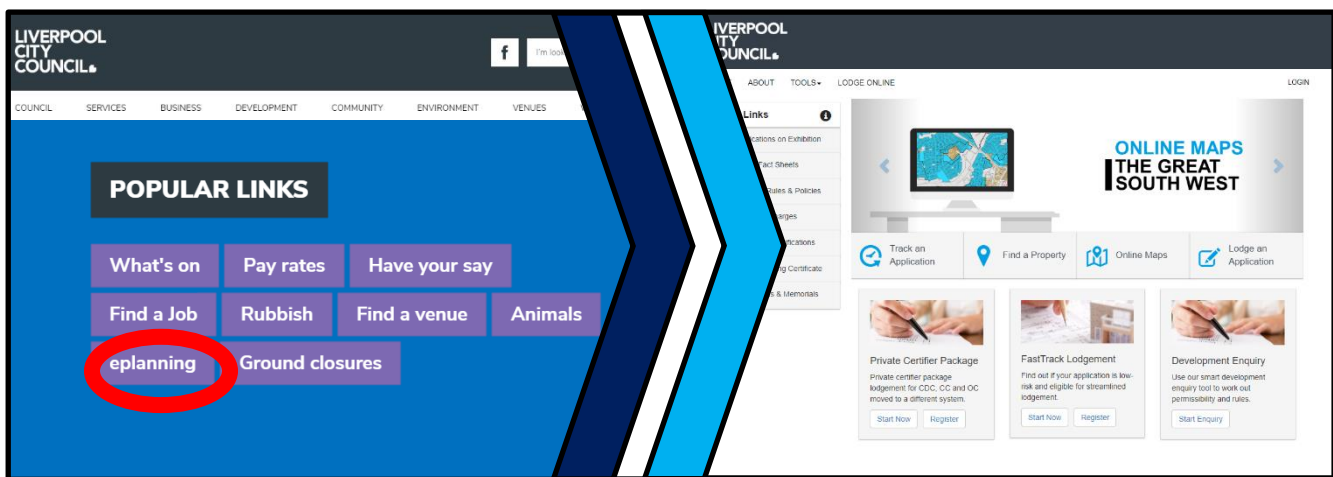

As a leading proactive Council and the capital of the Great South West, Liverpool is committed to placing customer satisfaction, innovation and best practice at the centre of everything we do. That is why we've invested in a new ePlanning portal.

The 24/7 ePlanning portal brings together helpful information to assist you with lodging a successful development application in one place, including zoning, planning rules, maps and property details. You can easily keep track of the progress of your application and search its history.

The portal provides a wide range of tools, including interactive development enquiry systems, online planning controls and property search tools.

How do I access the ePlanning Portal?

The ePlanning Portal can be directly accessed from the Liverpool City Council website. Under "Popular Links" click on "eplanning" and you will be redirected to the ePlanning Portal.
